

# Wish your data was here?

If your data needs to stay in Europe, then you need Countercept Europe, a Managed Detection and Response service, to protect it there, too.

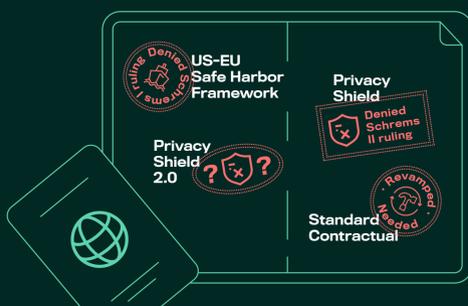

Departures		
Flight	Time	Destination
WS1	20:23	HERE, THERE AND EVERYWHERE
WS2	20:23	CLOUD CUCKOO LAND
WS3	20:23	BACK OF BEYOND
WS4	20:23	WHO KNOWS WHERE
WS5	20:23	XANADU
WS6	20:23	ATLANTIS
WS6	20:23	ANY PLACE BUT HERE

Data security, sovereignty and residency regulation is complicated, and evolving at speed.

But what if we could make keeping your data within European borders simpler?

Data security

Residency

Sovereignty

**10%** choose to localize data,

stop transfers or halt related services following the European Court of Justice 'Schrems II' decision.<sup>[1]</sup>

**1/3** organizations failed

to comply with GDPR regulations relating to data transfers.<sup>[2]</sup>

**38%** of customers

require their organization's data be processed in the originating region.<sup>[3]</sup>

**14.7%** of senior management

want a European vendor.<sup>[4]</sup>

## Staying local

A Countercept Europe MDR service can be delivered in varying degrees of separation, with complete separation eliminating the risk of sensitive data being exposed to individuals outside Europe.

**Step 1**

Data collected from clients' networks is encrypted in transit and at rest, and stored in a datacenter within the European Union

**Step 2**

Detection and Response teams based in Europe monitor your environment around the clock

**Step 3**

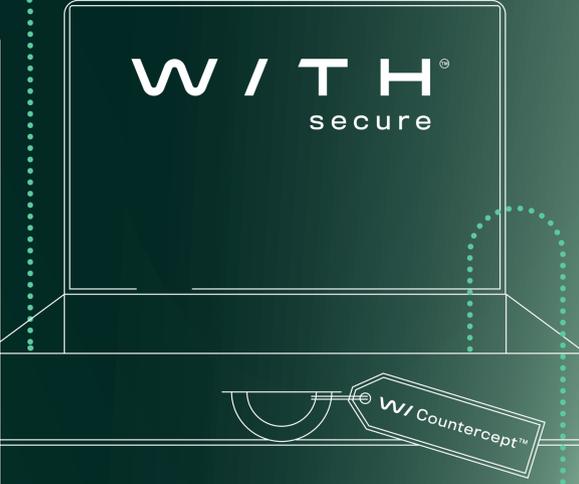

Tooling is engineered and maintained in Europe

## Is Countercept Europe right for you?

### Checklist:

- ✓ 1. Obligated by law to keep data in Europe
- ✓ 2. Customers insist their data stays in Europe
- ✓ 3. Need best possible defense against cyber threats
- ✓ 4. Need more resources to support the above

With Countercept Europe, your data stays in Europe unless you say otherwise.

Simple as that.

“The service is delivered inside Europe using tools developed by WithSecure in – you’ve guessed it – Europe!”

“The Threat Hunters, Researchers, and Detection and Response teams did a great job in defending our data, all from Europe.”

“We didn’t need to worry about our data being stored or accessed from outside Europe. What a relief!”
